About the project

Description of project	Groundworks: Groundworks - Other, Other: Not known, Roofwork: Roofwork - Other
Description of the construction work	The aim of the works is to retrofit a number of integrated Nature-based Solutions (NBS) into the urban environment to mitigate the impact of climate change. These works comprise a green/blue roof, a living wall, SuDS treepits. These installations will form part of a wider study to assess performance and effectiveness. The works will be distributed in separate areas of the University of Salford's Peel Park Campus. The green/blue roof is situated on the roof of the Lady Hale building. The living wall is situated on the western elevation of Cockcroft building. The SuDS treepits are situated in a pedestrian area to the east of New Adelphi building.
